DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

2. Claims 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese reference #4-7499. Japanese '499 discloses an impermeable liner comprising fasteners 10 wholly on the first side of the liner and wherein at least a plurality of the sections being free of field made joints extending along the length of the canal.

Allowable Subject Matter

3. Claims 1-13, 15, 16, and 20-28 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 17-19 have been considered but are most in view of the new ground(s) of rejection.

Furthermore, in the preliminary amendment filed 11/22/02 as paper no. 11, applicant submits (pages 5-6) that Japanese reference '499 discloses field made joints extending across the width of the canal. Thereby, Japanese '499 read on the "at least a plurality of sections being free of field made joints extending along the length of the canal."

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3673
